New Legislation:

Permitting System Updates: (Please include money or time saving changes)
System enhancements in order to increase online usage; error messages are more meaningful and working on improving system speed performance for the end user.

Procedural Changes:
Allowing 80,000 lbs on a quad on routine permits, as long as it passes LARS. These are reviewed by agents and not auto-issued.

Innovative or Special Initiatives:
Working with MSHP, Vestas, Siemens and Wind Movement Group on upcoming wind farms and possible waiver of MSHP escorts.

New/Unique Communication Efforts: (Describe any outreach to your carrier population)
E updates and superload email notifications to permits that have route issues after permit is issued.

Special Challenges Affecting Permit Operations:
Disaster relief for flooding and wind farm component moves.

Uniformity Pursuits:

Areas of Concern:

Successes:

4 phone agents and 1 agent working on incoming worklist, faxes and emails, has substantially reduced the carriers waiting time for issuance of permits.
